Beat record delivery with consolidated workflows—produce mixed monochrome and color sets in 50% of the time.<sup>2</sup> Achieve up to 30% savings in total production costs.<sup>1</sup> Save space and trim workflow cost with a single device for monochrome and color, or print/scan/copy with a multifunction printer.

## HP PageWide Technology

The HP PageWide XL 5000 Printer series includes a stationary 40-inch (101.6-cm) printbar that spans the whole printing width. As paper moves under the printbar, the entire page is printed in one pass, enabling very high printing speeds.

8 HP PageWide XL ink cartridges  
(2 x 400-ml per color with auto-switch)

## HP PageWide XL pigment ink for HP PageWide XL printers

HP PageWide XL pigment ink is specially designed to provide reliable and dependable operation with HP PageWide XL printers and produce high-quality output:

- Dark blacks and vivid colors on a range of media including uncoated bond papers
- Moisture- and fade-resistant prints<sup>6</sup>

## Proven technology for reliable operation

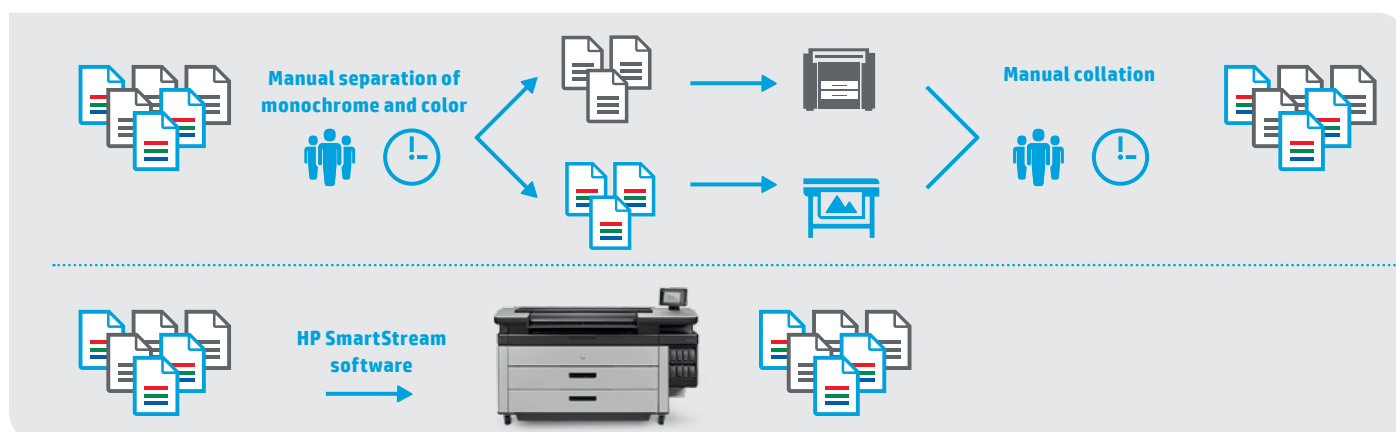

Designed for mid-volume production, the HP PageWide XL 5000 Printer series is based on proven HP PageWide Technology, currently powering HP PageWide Web Presses—producing 4 billion impressions monthly—and HP X series business printers.

HP 841 PageWide XL Printheads provide reliable and long-life operation, with an average life per printhead of 32 liters.

## Save time and reduce complexity by consolidating your monochrome and color workflows

Get away from the complex and lengthy process in which color and monochrome pages must be manually separated by an operator, who must then send color and monochrome to two different printers, and then finally manually collate the color and monochrome pages together.

Now you can consolidate your workflow by delivering mixed monochrome and color sets that help to contribute to up to 30% savings in total production costs.<sup>1</sup>

## Print fast, deliver faster

1. Using HP SmartStream Preflight Manager, jobs can be prepared in 50% of the time<sup>3</sup>
2. With an ultra-fast processor and the embedded Adobe PDF Print Engine 3,<sup>10</sup> HP PageWide XL printers are designed for quick processing, including the most complex jobs
3. Print up to 14 D/A1 pages/minute in monochrome and color
4. Reduce the wait for short jobs with a quick, 30-second first page out

## Set a new quality standard for technical documents

HP 841 PageWide XL Printheads, working with HP PageWide XL pigment ink, are designed to produce durable and high-quality output with dark blacks and vivid colors.

Accurate and reliable dot placement results in crisp lines, fine detail, and smooth grayscales. HP PageWide XL printers do not apply heat to the paper as part of the printing process, enabling very high levels of length accuracy ( $\pm 0.1\%$ ).

## Save space and trim workflow cost with a single device for monochrome and color, or print/scan/copy with a multifunction printer

1. **Up to 4 rolls**—automatic roll switching when a roll is depleted or a different page size is selected.
2. **Dual HP ink supplies** with auto-switch—replace used cartridges while the printer is running.
3. **8-inch touchscreen**—status light reports current status and provides progressive alerts on potential issues that could impact production (i.e., out of paper or ink).
4. **Top stacker** designed to save space. With a capacity of up to 100 pages. Combine with the HP PageWide XL Folder or the HP PageWide XL High-capacity Stacker for second output path.<sup>4</sup>
5. **High-capacity** output solutions specially designed to keep up with HP PageWide XL print speeds (high-capacity stacker and online folder).<sup>4</sup>
